

Welcome to the Health Link Program!

You have recently been referred to the Health Link program by a professional who wants to ensure that you get the most out of your health care system. Our aim is to improve communication between your care providers and support you along your health care journey.

During your journey, we will meet face to face along with all your care providers (this is considered a “Coordinated Care Conference”) and develop a care plan that meets your needs. This care plan will be provided to all who attend as well as yourself, so that you know exactly what your health care goals are.

A Care Coordinator will be assigned to you so that you know who to contact should you have any questions.

Over the next few weeks you will be contacted by phone from a Care Coordinator who will inform you of the next steps.

Please review the attached information package, and complete as much as possible. This will help us to identify areas that we can assist you with and create your health care goals.

We look forward to working with you!

Please do not hesitate to contact The Health Links Program Coordinator at (705)258-2818).
